Subject 3rd West Drawing

Joyce, Floyd, and Craig,

At long last, we have all the data to accurately produce the CAD drawing of the 3rd West site. We have a lot of different data on different layers of the drawing and can add or remove whichever layers we choose. I thought this combination would be the most useful to you.

Joyce and Craig, my next scheduled trip to Salt Lake City is March 1. I should be at the job site from about noon until about 3 p.m. I will also be at the job site on the 2nd from about 1 p.m. until the end of the day. I have asked R&R to have hard copies of a number of different layer combinations made for me and at the job site on the 1st. If you would like to visit the site, I suggest one of those two days. If you would like hard copies of any of the drawings, I will arrange to have them made for you.

David Wilson P.E.
